Attn: Diana Crull

Dear Diana,

In recent months, our company, began growing rapidly despite the sagging economy. Although this is exactly what we have been working so hard for, we found ourselves facing some unexpected problems. We were eager to make a good impression, but we were weighed down with all of the minor details.

As you may know, our company was awarded a contract that took most of our employees out of state. In addition to their lodging, meals, etc., I also needed a way for them to be able to access their pay every week. Although they had many, the biggest complaint they had was they didn't like losing a percentage of their wages at the check cashing stores.

I contacted Bill Casey and he suggested a program that Oculina had been trying in conjunction with Pay Partners. I admit to being hesitant at first. I was doubtful that the program would be as easy as it seemed and frankly, I little time and energy to devote to something new. Well, I am sorry I dragged my feet.

For once, everyone that I spoke with went above and beyond the norm to help me. I appreciate the quick response time to my emails - mostly within the hour. Not once was I referred to an 800 number, everyone handled my questions on the spot. I found that downloading the system and learning the in's and out's was much easier than I expected. Even the features I thought to be unnecessary turned out to be quite handy. Did I mention that it saves me in gas, too? I am able to handle everything in my office so, no more weekly trips to the bank to order money orders.

In all, moving our accounts to Oculina has proved to be one of the smarter business decisions we have made recently. I am glad to see the special attention that I get inside the branch extends much further than the four walls. Thank you so much for introducing me to Pay Partners and making business just a little bit easier.

Sincerely,

Melissa Blandford
